

ENVIRONMENTAL POLICY

METRON SA through its business activities wants to contribute to the protection of the environment with certified good environmental practices, and so implements an Environmental Management System in accordance with the requirements of the standard ELOT EN ISO14001: 2015.

The Environmental Management System of METRON SA concerns the design, printing, manufacture, storage and sale of paper and cardboard packaging items, as well as the printing of books and other printed materials.

For the correct implementation of the Environmental Management System, METRON SA is committed to setting targets and measurable indicators that will lead to:

- Continuous improvement of the environmental performance of its production process and the life cycle of its products
- Compliance with the environmental legislation to which its activities fall
- Pollution preventive actions that may occur from its activities
- Supply and use of environmentally friendly raw materials
- Proper management of waste and by-products of its production process
- Information and awareness on environmental issues of stakeholders (eg staff, subcontractors, customers)

The Top Management of METRON SA undertakes to implement first of all the above mentioned and update them. Also, it commits to provide the resources that are necessary for the continuous compliance of the Environmental Management System with the requirements of the ELOT EN ISO 14001: 2015 standard.

The Environmental Policy of METRON SA is reviewed by the Top Management at regular intervals, exactly as required by the standards applied by the company. It is communicated to all its employees during their training, but it is also available to any other interested party which participates continuously in its efforts such as its customers, suppliers and partners.

Yours sincerely,

Athanasios Georgiadis

General Director
